

# Us

Clare Bowen

You didn't tell me your name  
'Cause I already knew  
So I didn't ask  
And neither did you  
So we sat for a moment  
Like when you know it, you know it

I know every word you said  
Night I saw you when we met  
Know it now  
Didn't then

I was praying that you might be praying for what?  
Didn't know it till I saw it but I knew it was us  
Knew it was us  
I was waiting and you were waiting  
Never thinking it would happen only hoping it does  
'Til it was us

I was wearing a vest  
You were wearing the stars  
I was hiding the fact I felt like a fraud  
So we sat for a moment  
Like when you know it, you know it

I know every word you said  
Night I saw you when we met  
Know it now  
Didn't then

I was praying that you might be praying for what?  
Didn't know it till I saw it but I knew it was us  
Knew it was us  
I was waiting and you were waiting  
Never thinking it would happen only hoping it does  
'Til it was us  
'Til it was us

Outta nowhere  
No warning  
Like lightning  
Like morning  
Holdin' out hope  
Hopin' I don't  
Wake up, wake up

Outta nowhere  
Transforming  
Full colour  
Unfolding  
Holdin' out hope  
Hopin' I don't  
Wake up, wake up

I was praying that you might be praying for what?  
Didn't know it till I saw it but I knew it was us  
Knew it was us

I was waiting and you were waiting  
Never thinking it would happen only hoping it does  
'Til it was us  
'Til it was us
