

Real Thing

Clare Dunn

I remember that night in that small town bar
Took one look into your eyes and they told me who you are
Didn't have to say a word
Didn't say a word

Small town boy
Getting butterflies
Throwing fireworks like it's fourth of July
Saying baby can I kiss you first
Can I kiss you first

And I can't help myself
Cause no one else has ever made me feel this way, yeah

I can take a million pictures of you
But they never gonna do any justice to
Sitting right here, right now looking at the real thing
Like a Montana sky and a Cali sunset
My heart feeling that I get
Can't believe what I see when you look at me
Looking at the real thing
The real thing
The real thing
The real thing
Looking at the real thing

It's a feeling I get from head to toe
Moving so fast out of my control
And baby you know I know we got the real thing

And I can't help myself
Cause no one else has ever made me feel this way, baby

I can take a million pictures of you
But they never gonna do any justice to
Sitting right here, right now looking at the real thing
Like a Montana sky and a Cali sunset
My heart feeling that I get
Can't believe what I see when you look at me
Looking at the real thing
The real thing
The real thing
The real thing
Looking at the real thing

Baby I know there's no faking
When you say that you want me, you need me, you love me
I know it's the real thing

I can take a million pictures of you
But they never gonna do any justice to
Sitting right here, right now looking at the real thing
Like a Montana sky and a Cali sunset
My heart feeling that I get
Can't believe what I see when you look at me
Looking at the real thing
The real thing

The real thing
The real thing
Looking at the real thing

The real thing
The real thing
The real thing
Looking at the real thing

The real thing
The real thing
The real thing
Looking at the real thing
