

Unread

Clare Dunn

Kind of a jerk move
Leaving them read receipts on
And that one word says everything
Cause I know you got your phone

Thought we had a good thing
You sure talked a big game
I guess what you mean and what you say
Are two different things

When you leave me unread
I get stuck in my head and I second guess
Everything that I said like a total mess
And I can't stop thinking bout everything we did
And I'm holding my breath like a total fool
You leaving me hanging and so confused
And I just wanna hear something from you
But instead you leave me unread
You leave me unread
You leave me unread
You leave me unread

Tell me is it fun keeping me in the dark
Is that what you do when you can't choose
Is this really who you are
Baby give me something any kind of thought about us
Should I stay or go yes or no
I ain't asking for much

But when you leave me unread
I get stuck in my head and I second guess
Everything that I said like a total mess
And I can't stop thinking bout everything we did
And I'm holding my breath like a total fool
You leaving me hanging and so confused
And I just wanna hear something from you
But instead

You leave me unread
You leave me unread
You leave me unread
You leave me unread

Confused, unsure
Can't take much more
Confused, unsure

I get stuck in my head and I'll second guess
Everything that I said like a total mess
And I can't stop thinking bout everything we did
And I'm holding my breath like a total fool
You leaving me hanging and so confused
And I just wanna hear something from you
But instead
