

Wanna Go Home (For Christmas)

Clare Dunn

I just wanna go, I just wanna go home for Christmas
Light up every wreath and watch the snow as it glistens

Feels like forever since I've been back
Santa won't you grant me one wish
I want to see it and everyone I love
It's been four long years since
I've had any kind of real peace in my life
Been living in a world that I don't even recognize, recognize

So I just wanna go, I just wanna go home for Christmas
Light up every wreath and watch the snow as it glistens
Hear the sleigh bells ring, let the choir sing, wanna decorate
the Christmas tree
I just wanna go home, wanna go home for Christmas, yeah

Oh, I remember him
Kind and wonderful
I wonder if he's still around
I should have never left
We were something special
And maybe it's too late now
But then again, it's the season to believe in hope
That maybe those feelings come back under mistletoe, mistletoe

So I just wanna go, I just wanna go home for Christmas
Light up every wreath and watch the snow as it glistens
Want to cozy up, maybe fall in love, do some kissing under mist
letoe
I just wanna go, I just wanna go home for Christmas
I just wanna go home, wanna go home for Christmas, yeah

I wanna go home
Yes, I wanna

Cause I'm ready for some real peace in my life
Yes, I'm ready for a world I can recognize

So I just wanna go, I just wanna go home for Christmas
Light up every wreath and watch the snow as it glistens
Hear the sleigh bells ring, let the choir sing, wanna decorate
a Christmas tree
I just wanna go, I just wanna go home for Christmas
I just wanna go home, wanna go home for Christmas, yeah
