We Are

Clare Dunn

Runnin' that El Dorado
Lovin' like no tomorrow
Baby don't, baby don't ever stop looking at me like that

Follow this road forever
We're making these miles together
Baby no, baby no, never looking back

Yeah we're cuttin' a path through the desert heat
Carvin' our names in a memory
Sittin' right here, going this fast
Baby, you and me

We're a slow burn
Taking every curve
Yeah, we're sunset chasin'
For all we're worth
We are love on fire
Lighting up the night
Never die down, never go out
Everything I want, we are
Magic, classic, good kind of bad habit
A rocket launch into a Saturday night
I love everything we are
We are
Let's not ever change
I love everything
We are

We're a dance floor kiss in Texas
We're a map on the hood in Kansas
Living on a Waylon song, dreaming these dreams with you

Highs and lows that we been through
Bullets we'd take if we have to
I got your back, you got my back, that's what makes me and you

Never give up and never let go
Keep these wheels rolling down the road
Going strong, going on, on and on and on

We're a slow burn
Taking every curve
Yeah, we're sunset chasin'
For all we're worth
We are love on fire
Lighting up the night
Never die down, never go out
Everything I want, we are
Magic, classic, good kind of bad habit
A rocket launch into a Saturday night
I love everything we are
We are
Let's not ever change
I love everything
We are

We're a slow burn
Taking every curve
Yeah, we're sunset chasin'
For all we're worth
We are love on fire
Lighting up the night
Never die down, never go out
Everything I want, we are
Magic, classic, good kind of bad habit
A rocket launch into a Saturday night
I love everything we are
We are
Let's not ever change
Let's just stay the way
We are
Yeah, we are
I love everything
I love everything
We are
