You wander out every night
Looking for a girl who's going to move your pain around
I might be easy now
But what you gonna do when the secret's out?

I'm trouble every day
You oughta hear the things that they say
Trouble, trouble every day
You know I want it every which way

So you're gonna miss me
You're gonna miss me
You're gonna miss me, so oh, bad
You're gonna miss me
You're gonna miss me
You're gonna miss me so oh, bad

Feel the heat on your beach
Driving in the Porsche you think you're spoiling me
You know I might be easy now
But what you gonna do when the secret's out?

Trouble, trouble every day
You know I want it every which way

I'll just let you wait and think of me
You can see it in a magazine
I hear you calling, let it ring, ring, ring

You oughta hear the things that they say
Trouble, trouble every day
You know I want it every which way
