

## Something I'll Remember

Classics IV

The melody of that old song  
They played the night we met  
Is something I'll remember  
But something she'll forget

The picnic and the thunderstorm  
When we got soaking wet  
Is something I'll remember  
But something she'll forget

She won't remember  
All these things I'm thinkin' of  
'Cause she's a girl just having fun  
But I'm a boy in love

The way I held her close last night  
The words of love we said  
Is something I'll remember  
I hope she won't forget

Is something I'll remember  
I hope she won't forget

Is something I'll remember...
