

## Waves

### Classics IV

Waves keep rolling out and in  
'Cross the sea and back again  
As I watch them I begin  
To dream

Until we're playing in the sand  
Oh, the woman and the man  
By the shore  
Watching waves

Waves that whisper through the night  
Creeping in and outta sight  
Waves that wash the sand so white  
It gleams

Waves that only yesterday  
Took the girl I love away  
And left me  
Watching waves

Waves that only yesterday  
Took the girl I love away  
And left me  
Watching waves

Watching waves  
Watching waves  
Watching waves
