

# One More Song

Classixx

Stay around  
'Cause you keep on running away, no  
You hear the sound  
I can feel you're moving astray, no

Feel it coming  
Nobody will ever feel what we had  
Feel it coming  
Nobody will ever know that you said

Hold on, come here  
I've been keeping back for way too long  
Lay down your fear  
We can find a way for one more song  
(Find a way) One more song

Don't hold it down  
It's our time, so stop to pretend, no  
Let's make it count  
Think you know this won't be the end, no

Feel it coming  
Nobody will ever feel what we had  
Feel it coming  
Nobody will ever know that you said

Hold on, come here  
I've been keeping back for way too long  
Lay down your fear  
We can find a way for one more song  
Hold on, come here  
I've been keeping back for way too long  
Lay down your fear  
We can find a way for one more song  
(Find a way) One more song  
(Find a way) One more song

(Hold on)  
If only you could see how close we were  
Never again did I feel  
Wish I could go back to beginning  
So promise to

Hold on, come here  
I've been keeping back for way too long  
Lay down your fear  
We can find a way for one more song  
(Find a way) One more song
