

All That We Are

Classless Act

Lockdown in the city
Heroes in disguise
You could pray to God
That won't keep you alive
The streets don't have no pity
For the riot in your mind
Maybe there's a God that could see for the blind

I hope that there's still time

All that we are
Is it enough to keep us alive?
All that we are
Is it enough for us to survive?

Temperature erratic
Unrest is on the rise
Everything is wrong
To your left and your right
Keep your panic manic
And if they get too wise
Maybe there's a fraud that can keep you alive

I hope that there's still time

All that we are
Is it enough to keep us alive?
All that we are
Is it enough?
All that we are
Is it enough for us to survive?

But somewhere in my mind
I hope that there's still time
I hope that there's still time

All that we are
Is it enough to keep us alive?
All that we are
Is it enough?
All that we are
Is it enough to keep us alive?
All that we are
Is it enough for us to survive?
