

Storm Before The Calm

Classless Act

Young like me, bury me in the street
I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Crawl into the void
Lay down and taste the noise
Twisted like a snake
My hands against the flame
And all this weight
Pushing down and calling out
I can't wait
Feel the storm before the calm

Young like me, bury me in the streets
I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Ooh, I'm the storm before the calm
Ooh, I'm the storm before the calm

I'm running low on faith
I'm all gas, no brakes
Finally awake
Break the light, the maze
Oh, these fallen stars
Pushing down, burning out
I can't stay

Young like me, bury me in the streets
I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Young like me, bury me in the street
I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Ooh, I'm the storm before the calm
Ooh, I'm the storm before the calm

I'm the calm before the bomb
The napalm in the Vietnam
The Superman that you cannot harm
I am a king just like Lebron
Darryl Mac is a classless act
On track to attract and bring the classless back
Back in black, get a rap
And that's a fact
Always packin', I'm strapped
Get a blast to track, yeah
I'm the calm before the storm
Turn the music on and you can't go wrong

Young like me, bury me in the streets

I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Young like me, bury me in the streets
I'm the thunder before the lightning
Yeah, the kingdom's about to come
I'm the storm before the calm

Ooh, I'm the storm before the calm
Ooh, I'm the storm before the calm

Ooh
Ooh, I'm the storm before the calm
