

You know you called me at the right time
I never thought that I'd be your type
No, I never woulda held back
If I knew you like that

Won't tell anyone about you
If that's not what you want
Won't say anything, but I'll do
Everything you want

Baby, I'm reading this right
Baby, it just feels like
You hold me but not too tight
And when you talk me up it don't sit nice
You can hurt me, it's easy

Down, down
Don't let me down easy
Down, down
Don't let me down easy

Don't know much about your past life
Don't hear much about the good times
You know you never have to feel bad
I hope you know that

Won't tell anyone about you
If that's not what you want
Won't say anything, but I'll do
Everything you want

Baby, I'm reading this right
Baby, it just feels like
You hold me but not too tight
And when you talk me up it don't sit nice
You can hurt me, it's easy

Down, down
Don't let me down easy
Down, down
Don't let me down easy

Won't tell anyone about you
If that's not what you want
Won't tell anyone about you
If that's not what you want

Baby, I'm reading this right
Baby, it just feels like
You hold me but not too tight
And when you talk me up it don't sit nice
You can hurt me, it's easy

Down, down
Don't let me down easy
Down, down
Don't let me down easy
