

# Falling With The Rain

Claud

Perfect afternoon  
Like the sky, I'm lookin' blue  
Lighting up the room  
Pull the curtain, kill the view  
Say what's on my mind  
But it ends in never mind  
Cheeks are as red as wine  
What's new?

I know sometimes I start falling with the rain  
(Falling with the rain)  
Give me some time so I can fall back into place  
(Fall back into place)  
Feeling out of my head  
Coming undone thread by thread  
I know sometimes I start falling with the rain  
(Falling with the rain)

Think it's time to leave  
Blowing with suburban trees  
It's all the same to me  
Up above and underneath  
Oh, I've gotta know  
What it's like to let your feelings go

I know sometimes I start falling with the rain  
(Falling with the rain)  
Give me some time so I can fall back into place  
(Fall back into place)  
Feeling out of my head  
Coming undone thread by thread  
I know sometimes I start falling with the rain  
(Falling with the rain)

In my head, in my head  
I've been hanging by threads  
In my head, in my head, in my head  
In my head, in my head, I hang on by a thread  
In my head, in my head, in my head  
In my head, in my head, I've been hanging by threads  
In my head, in my head, in my head  
In my head, in my head, I hang on by a thread  
In my head, in my head, in my head

Falling with the rain  
Fall back into place  
Falling with the rain  
Falling with the rain
