

Go Home!

Claud

I could tell where you were going but
Your words trailed off to nothing and
You usually have to cut me off
But right now I'm not talking

I don't understand your references
Or your collegiate sentences
Friends who talk theory when
I thought this was a party

I wanna go home
The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow
I wanna go home
The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow

I could tell the dust will settle
If we just let it sit
So we listened to the AC the whole way to Connecticut
And as the silence slowly started filling up my ears
I couldn't shake the memory of leaving you last year

The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow
I wanna go home
The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow
I wanna go home
I wanna go home (Home, home, home)
I wanna go home (Home, home, home)

I could tell where you were going
But your words trailed off to nothing
And you usually have to cut me off
But right now I'm not talking

(The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow)
I wanna go home home home
(The feeling I'm getting when I'm second guessing is here
And you aren't helping lessen the blow)
I wanna go home
