Gold

Claud

I know it's a problem I like falling into your arms
And I know there's a reason that I always put up my guard
You like drinking and then taking things apart
But can't you see we're different people I don't wanna make this hard

I like my peace
You like to fight
I like to reach
You hold on tight
But I'm afraid to ask you why (to ask you why)

Don't say (don't say)
You were there when you weren't
Cause I don't think (don't think)
You were there when I was hurting
And now I don't know if I wanna come home
Now I don't know if I'll ever go back

You're so cold (so cold so cold)
Ice on snow (don't say you'll be there)
It gets old (gets old gets old)
Rust on gold

I'm too optimistic when I think that this'll work out
Without another emotional night where we both break down

I keep talking
You say nothing
I'll keep trying
For something
But I'm afraid it's not working

Don't say (don't say)
You were there when you weren't
Cause I don't think (don't think)
You were there when I was hurting
And now I don't know if I wanna come home
Now I don't know if I'll ever go back

You're so cold (so cold so cold)
Ice on snow (don't say you'll be there)
It gets old (gets old gets old)
Rust on gold

Oh I should've told you what I never did
I feel like I wasted away so many minutes (don't say you'll be there)
I need something different than the way this is
Cause I feel like I'm falling in

Don't say (don't say)
You were there when you weren't
Cause I don't think (don't think)
You were there when I was hurting
And now I don't know if I wanna come home
Now I don't know if I'll ever go back

You're so cold (so cold so cold)

Ice on snow (don't say you'll be there)
It gets old (gets old gets old)
Rust on gold

Ice on snow (don't say you'll be there)
It gets old (gets old gets old)
Rust on gold
