

# In Or In-Between

Claud

Hello hello, check check  
Okay

So are you in or you out?  
Got me spinning around  
Think I'm gonna be sick  
Had my head in the clouds  
Tried settling down  
Till you gave me a kiss  
And all my memories came back  
Way back when we first met  
Looked my way and I turned red  
You're even hotter off the internet  
Gotta leave the room when you enter it  
Don't wanna say something I'll regret  
I can't even focus on a conversation  
Babe I'm getting lost in translation  
Had enough space sick of stargazing  
I miss you and me, do you disagree?

Please can you tell me what you mean?  
Can you spell it out for me?  
Cause your lips are hard to read  
Are you in or in-between?  
Tell me tell me what you mean  
Tell me tell me what you mean

Come closer babe  
I feel the same  
You hesitate  
Then you push me away  
Y basta ya  
Di la verdad  
Que quieres más  
But you push me away

I wanna have a taste  
And I wanna be near you  
Don't make me walk away  
Unless you're coming with me too  
No quiero ser tu amiga  
Are you feeling the same?  
Quiero ser tu vida

Please can you tell me what you mean?  
Can you spell it out for me?  
Cause your lips are hard to read  
Are you in or in-between?  
Tell me tell me what you mean  
Tell me tell me what you mean
