

In Or In-Between

Claud

Babe, it's Friday night
Can you stay a little longer?
Wait outside for me
Give me a minute I
Haven't had the time to breathe or
Put down my drink and

I hate this bar
Let's go somewhere else where we're in the dark
Keep our hands to ourselves, but we're falling hard
And I don't know how to tell you, tell you how I want you

Please, can you tell me what you mean?
Can you spell it out for me?
'Cause your lips are hard to read
Are you in or in-between?
Tell me, tell me what you mean
Tell me, tell me what you mean

Is this going bad?
You make me wanna run away
It's so hard to stay when
We're dancing back to back
And it looks like my friends left
And the music's getting sad

Yeah
I hate this bar
Let's go somewhere else where we're really far
Keep our hands to ourselves, 'til we're in the car
And I just want to tell you, tell you what I want to

Please, can you tell me what you mean?
Can you spell it out for me?
'Cause your lips are hard to read
Are you in or in-between?
Tell me, tell me what you mean
Tell me, tell me what you mean

Please, can you tell me what you mean?
Can you spell it out for me?
'Cause your lips are hard to read
Are you in or in-between?
Tell me, tell me what you mean
Tell me, tell me what you mean
