

# Never Meant To Call

Claud

I'm halfway there  
Happened to stop by Courtney's  
Bought you some shit you don't need  
I'm halfway there  
Hope you don't see me coming  
I might be walking funny  
I might be

I had a plan to take you by the hand  
Till I saw you leaning her against your door

Never meant to call, never meant to call  
Never meant to call when she's in your room  
Never meant to call, never meant to call  
Never meant to call when she's in your room  
(Never meant to call when she's in your room)

Where went my day?  
I hope you know you caught me  
Can't seem to say the right thing  
Still no way  
Showed up to hide it on me  
I might be walking funny  
I might be

I had a plan to take you by the hand  
Till I saw you leaning her against your door

Never meant to call, never meant to call  
Never meant to call when she's in your room  
Never meant to call, never meant to call  
Never meant to call when she's in your room  
Never meant to call, never meant to call  
Never meant to call when she's in your room  
Never meant to call when she's in your room  
Never meant to call when she's in your room  
I'm halfway there  
Never meant to call when she's in your room  
I'm halfway there  
Never meant to call when she's in your room

(Never meant to call when she's in your room  
Never meant to call when she's in your room)
