Claud

Lying, I'm lying I'm alright
You're coming at me on all sides
I swear, I swear, it's not right
You've got me on my blind side

All my time is spent online
All my time is spent online

Think I'm fine, might be [?]
Coming at me on all sides
Swear its night, can't be right
Got me on my blind side

All my time is spent online
All my time is spent online
All my time is spent online

(All my time)
(All my time)
(All my time)

All my time is spent online
All my time is spent online

All my time is spent online
