

Oh, oh, feeling like your boyfriend
I know you would never date him
Besides, I never thought I wanted you

Oh, no, I'm feeling like an actor
Wishing you happy ever after
Whole time I didn't know I needed you

'Cause you know you messed up and that's why you came
By in the morning to tell me you've changed

That's not an apology
But I'll take what I can get
Dip your feet but not too wet
I swear this isn't like me
But you're standing on the edge
Say you'll never jump but I know you want in

Come in close enough to see your
Breath is fogging up the mirror
I swear that was just to hear you
Promise it's sincere

'Cause you know you called me a 2:30 AM
But I'm the one who's left crying again

That's not an apology
But I'll take what I can get
Dip your feet but not too wet
I swear this isn't like me
But you're standing on the edge
Say you'll never jump but I know you want it

Knowing me, I'll do what you say
Knocked down the walls in your apartment
And knowing you, you'll never hesitate
'Cause we're no good when we're apart and

Knowing me, I'll do what you say
Put my shoes up on your couch
And knowing you, you'll never hesitate
There's nothing left I care about

That's not an apology
Knowing me, I'll do what you say
But I'll take what I can get
Dip your feet but not too wet
I swear this isn't like me
Knowing me, I'll do what you say
But you're standing on the edge
Say you'll never jump but I know you want in
