

# Shadow Of An Angel

Claude Kelly

You look I-dentical  
To someone I know  
Or am I just imagining  
That someone is you...  
Cause you walk just the same, but your attitudes changed,  
Like someone's pretending they're you  
Yeah and you disappear even though your still here  
That's the truth... so

[Chorus:]  
Where did you go  
Look at you now  
You're just a shell of an angel I found  
So here I stand  
Outside your house  
I know that your home but the lights are all out  
And I thought from heaven you came  
But now everything's changed in a  
Moment you just shut me out  
Where did you go  
Look at you now  
Cause your just the shell of an angel  
Shell of an angel I found

You look I-dentical  
You sure get around  
And sometimes I call your name  
Even scream it out loud  
But you act so dif-fe-rent when you're out with your friends  
Do they even know the real you  
Cause the one that they see is a stranger to me  
That's the truth... so

[Chorus]

But you act so dif-fe-rent when you're out with your friends  
Do they even know the real you  
Cause the one that they see is a stranger to me  
That's the truth... So

[Chorus]
