

Highway Lonely

Claude King

Well I'm trapped in web of my own makin' all because your love
was easy takin'
You had me believing that I was the only one I didn't know you
were only having fun
I made a mistake when I went to your house
You played with my emotions like a cat with a mouse
You quit me cold and said we are through
You put me on highway lonely goin' somewhere new
Highway lonely oh where does it goes I've asked everybody nobod
y knows
If there's anybody that wonders bout me
I'm walkin' on highway lonely that's where I'll be
I wish I could stop thinkin' bout you thinkin' of all the good
times we've had
But while I'm sitting here with all my thinking you're doing so
mebody bad
Highway lonely oh where does it goes...
I'm walkin' on highway lonely that's where I'll be
