

## She Knows Why

Claude King

I have a story I'd like to tell broken heart's knowin' only too well

And she knows why I feel the way I do

She gave me love and took it away blue sky has turned to a solid grey

And she knows why I feel the way I do

Well I know I'm a walkin' down the lovesick trails been walked down by many before

But when she sees my side of tracks she'll know I've learned the score

I pick my tears put 'em on the shelf keep my heartaches to myself

And she knows why I feel the way I do [ guitar ]

When she finds somebody new he'll find out what I went through

And she knows why I feel the way I do

She gave me love and took it away blue skies had turned to a solid grey

And she knows why I feel the way I do

Well I know I'm a walkin' down...

She knows why I feel the way I do
