

Would You Care

Claude King

Would you care if I should leave you would you care if we should part

Would your heartache just a little tell me darling would you care

Lift your eyes to mine my darling let me see the love like that
For you know I love you dearly and to me there's none so fair

Yet in time I often wonder would you care if I dare

Tell you that my love had vanished tell me sweetheart would you care

Would you care if I should leave you would you care if we should part

Would you care if someone told you that another won my heart

Would you care if you found me mostly held in someone's arms

Would your heartache just a little tell me darling would you care

Just suppose that I should leave you and tomorrow I'd be gone

Would your sweet lips still remember the kisses that we've known

Would you want me back my darling would your heart still feel the same

Would the lonely tears shown in your eyes each time you hear my name

Would you care if I should leave you...
