

One Of A Kind

Clavish

I've got opps that want me to die
Got cops that want me to ride birds
They're tryna get on to my life
She just wanna get on it and ride
Drip too hard and I'm outside
So they can't help but look at me nice
Two-tone, does more than shines
So she can't help but look at me twice
Leg shot cah you ain't on
Crash one, we're tryna put one in his mind
My teachers all had something in common
They thought I was one of a kind
Girl I know you've got work in the morning
Shouldn't stop you tryna buss it tonight
The streets know I legit put work in
Say that I don't then it must be a lie

I'm too hot for dates in Tiger Bay, Sexy Fish and Syon Lounge
Imma keep it close on a normal date, even when I'm not riding out
My jeans be Amiri, you can't get near me
My AR's home, will do you up clearly
Broad daylight or touching the evening
My diamonds dance, I know that they're scheming
I'm too hot for dates in Tiger Bay, Sexy Fish and Syon Lounge
Imma keep it close on a normal date, even when I'm not riding out
My jeans be Amiri, you can't get near me
My AR's home, will do you up clearly
Broad daylight or touching the evening
My diamonds dance, I know that they're scheming

I'm doing better than most of my peers in school
That got straight A's and B's
I see my opps in 'other Snapchatters'
I'm shining, I know they hate to see
I was in jail, couldn't wait to leave
Fly red lights, can't wait for green
Food's so peng, told the cat imma be three hours
He's still gonna wait for me
This ho from Manny told me she had a dream, she ate my D
I spat in her mouth, ragsed it clean
She got a man, you see what I mean?
And you done some snaky shit
So whose fault is it you're not with the team?
Oh you think these toys are fake?
Keep the same energy when it beams
When I'm breaking down a nine, only time I'm cutting a corner
I don't really go party so if I say I'm coming, I'm coming in order
Security touch me up like say me and gang ain't both got a borer
If the party's local, close enough
Best know we don't come with the sawn-off
Niggas know what I do with the blade
Tryna give some scars and trauma
Tryna get down somebody's son
And go spill somebody's daughter
Winter time's still hot where I'm from
But where I'm from summer's just warmer
I'm meeting rappers but the rhymes they rap don't match their aura

He don't know shit about keeping it G
Got touched and started informing
If broski can't get in with the whistle, sorry I won't be performing
If he went on a ride when it was night
See nothing be back by the morning
Niggas can't tell me nothing bout gliding
In my prime that shit was exciting
And my Carti attract all the lighties
If I cop an AP, that's frightening
It was me on the ones in Isis
Came home, my wrist, I iced it
When they think you've got money, it's funny
How when they talk to you it's the nicest
If you see us in a public place, hella shanks or we got the pipe in

I'm too hot for dates in Tiger Bay, Sexy Fish and Syon Lounge
