

## Sold Out Dates

Clavish

Next time that I run off on a plug  
Puttin' half away, then I'm goin' A Jewellers  
My young boy no ID calling  
Wanna take freekick, penalty, corners  
Shoot while it's movin', I don't like walkin'  
Hit, then I swerve it, she ain't important  
Ain't even touched her yet but she pouring  
Sold out dates, free my niggas touring

I really wanna squeeze, not tap it  
In HMP, I was fapping  
Mum overheard me sayin' that suttin' jammed before I hopped out all active  
I was in cunch with the G packs, stranded  
Hit him in his chest, still up, outstanding  
Last wetting I done, never planned it  
Plan Bs, I ain't puttin' on plastic  
I can rap 'bout more than a sawn off  
New toy we've got, it's a teenager, cost more than a two and a daughter  
In EC1 if I ever need water  
I was in jail watchin' Real Housewives, Nene, Kandi, and Porsha  
Pull up in a Porsche, is it still fuck all of my opps? Course, of course  
Used to be on but you're not anymore  
Got me a drop, no time to cover my face, they know it was me, don't act like  
you're not even sure  
Put mix in my ting but I wanted it raw  
Now I don't answer whenever he call  
My civilian friend told me run it back, bro, I'm livin' my life, you should  
go and live yours  
In '019, I was rambo testy-testin', bedsheets covered in Fenty  
They're talkin' about me plenty, even when I don't try, I'm trending  
Crash ain't lettin' off bine, he's fencing  
Insta ting got a spine just bending  
Still breathin' but you know that his face on a plain white t-  
shirt's pending

Next time that I run off on a plug

And after I bust my nut in The Shard, I'm thinkin', "Rah, I could have bough  
t me a dinger"

Couple of thousands just for the spinner

Spent the exact same thing on my finger

Don't even try, I'm a dripper

Free 31, he a flipper

Keep throwin' up gang signs all that you want, the whole hood know you a sin  
ger

Suitcase if you wanna go for a meal

I'm too bait for a UK dinner date

Priorities, wait, you know how much guns I can buy if I don't put my name on  
a chain?

Runnin' her mouth on iMessage, put dick in it, now I can't hear what she's s  
ayin'

My friends say I should make friends with the rappers, I know they just wann  
a hit up a stain

Like Central, I'm not in my bag just yet

I'm tryna have paigons bangin' my tape

Got couple man on my blade so be grateful if you just got a bang in the face  
S got his mind right but he's too tapped, never know, might just let it bang  
in the place

S\*\*\*\*\* right hand wanna fuck me, if I do that, gotta take that one to the gr  
ave

Tryna put a boy on his arse like musical chairs

You can hang with my opps, that's calm, no one's adjusting their aim if we e  
ver see you over there

The way that my diamonds dance, you can see me from afar, I ain't gotta be n  
ear

My man's Mum better re-
