

## Dying to Know

Clawfinger

My own death becomes me  
I'm a victim of my device  
I haven't got enough clarity  
To dwell upon the afterlife  
The need to have the patience  
And I don't wanna wait in vain  
So I set up for the simple logic  
That only my bones remain

I'm not dying to know  
And you're not living to tell me

I'm not dying to know  
And we're not gonna find out  
Until it's time to go

I can't rely on a theory  
So I might as well expect the worst  
Which is just like questioning  
Which of the chicken or the egg came first  
It doesn't make an difference  
And I'll be dead before I find out  
For that reason I can't give you  
The benefit of the doubt

I'm not dying to know  
And you're not living to tell me

I'm not dying to know  
And you're not living to tell me

I'm not dying to know  
And we're not gonna find out  
Until it's time to go

If your life's that precious  
Then what's the fuss about?  
I don't care what's in store for me  
So you can count me out  
Cause

I'm not dying to know  
And you're not living to tell me

I'm not dying to know  
And you're not living to tell me

I'm not dying to know  
And we're not gonna find out  
Until it's time to go
