

# Makes Me Want to Stay

Clay Walker

I live my life like a gypsy  
And I call a lot of gypsies my friend  
I embrace each moment for the moment  
Then I let 'em all go with the wind  
Girl I never let this feeling I'm feeling  
Carry me so far away...

I'm a long way from home  
And the night's almost gone  
But your love makes me want to stay  
Deep down there's something  
That just keeps me running  
But your love makes me want to stay  
Your love makes me want to stay

There's a freedom for me in your laughter  
A freedom that I never knew  
And maybe it's what I've been after  
Girl I've always been running to you  
I believe in this feeling I'm feeling  
You carry me so far away

I'm a long way from home  
And the night's almost gone  
But your love makes me want to stay  
Deep down there's something  
That just keeps me running  
But your love makes me want to stay  
Your love makes me want to stay

I'm a long way from home  
And the night's almost gone  
And your love makes me want to stay  
Deep down there's something  
That just keeps me running  
Your love makes me wanna stay

I'm a long way from home  
And the night's almost gone  
Your love makes me want to stay  
Deep down there's something  
That just keeps me running  
But your love makes me want to stay  
Your love makes me want to stay  
Makes me want to stay
