

Need a Bar Sometimes

Clay Walker

Yeah you might need a taste of tequila
Or a cool beer on an old barstool
Might want to kill a little time after you knock off at 5
To kick a little dust off your boots

We all need a bar sometimes
Lean back with a long neck on a neon night
Somewhere you can sip and unwind
Or hang out with the party crowd till closing time
You might be drowning her leaving
Or just here drinking
But we all need a bar sometimes

You might need it for meetin' somebody
Yeah or learning to let someone go
Want to turn the jukebox up, light one up
And just get lost in the smoke

We all need a bar sometimes
Lean back with a long neck on a neon night
Somewhere you can sip and unwind
Or hang out with the party crowd till closing time
You might be drowning her leaving
Or just here drinking
But we all need a bar sometimes

You might be drowning her leaving
Or just here drinking
But we all need a bar sometimes

We all need a bar sometimes
Lean back with a long neck on a neon night
Somewhere you can sip and unwind
Or hang out with the party crowd till closing time
You might be drowning her leaving
Or just here drinking
But we all need a bar sometimes

You might be down on your luck
And just need a little buzz
But we all need a bar sometimes

Yeah we all need a bar sometimes
