One More

Clay Walker

Baby, we been going at it five days a week
Passed my forty hours and I need some relief
This one went down way too easy and it's almost gone
I know when we walked in here we said we'd just have one

One for the good times
One 'cause we should time
One 'cause we ain't got to go out in a long time
I'm thinking you and me should hit that old dance floor
Whatcha say we stick around and have one more?

Candle on the table, it's a glowing on your face
Girl, the way you're smiling puts me in my happy place
Looking at you baby makes it hard enough to think
Whether we should hang around and have another drink

One for the good times
One 'cause we should time
One 'cause we ain't got to go out in a long time
I'm thinking you and me should hit that old dance floor
Whatcha say we stick around and have one more?

One for the road, we'll be good to go
We'll catch a cab and take our little party home

One for the good times
One 'cause we should time
One 'cause we ain't got to go out in a long time
I'm thinking you and me should hit that old dance floor
Whatcha say we stick around and have one more?
