

# Working On Me

Clay Walker

When I sleep  
The first person I see in my dreams  
You come out of nowhere  
And you're real to the touch and I hate waking up  
Even when you're not here  
You're workin' on me

When I drive  
I stare out the windshield and I try  
To picture every detail of your face and your smile  
Every kiss, every mile  
No matter where I'm going  
Girl, you're workin' on me

Like a second glass of wine  
Slow and easy through my mind  
You take hold of me, like gravity  
Like the full moon pulls the tide  
I couldn't stop it if I tried  
So keep doing what you're doing  
It's workin' on me

When you're close  
My self-control goes up in smoke  
I just can't keep my hands off you  
The soft on your skin and your eyes pull me in  
Everything about you girl is workin' on me

Like a second glass of wine  
Slow and easy through my mind  
You take hold of me, like gravity  
Like the full moon pulls the tide  
I couldn't stop it if I tried  
So keep doing what you're doing  
It's workin' on me

Like a second glass of wine  
Slow and easy through my mind  
You take hold of me, like gravity  
Like the full moon pulls the tide  
I couldn't stop it if I tried  
So keep doing what you're doing  
It's workin' on me

Mmm when I sleep  
Mmm when I drive  
It's workin' on me  
Girl you're always workin' on me
