

# Freedom

Clazziquai Project

Say your name, look at me  
Relax your body and mind  
There's something you want to  
Get away right now  
I feel this is how  
You will learn to let it go  
You'll feel like someone new

Do you see in the dark  
Who's the boy there by the river  
It is you, is it me  
The little boy seems very eerie  
Why, Why, Why, Why, Why

Going under, feel the freedom  
Going under, feel the freedom

How'd you feel, call me now  
Follow the beat of your heart  
The ghost inside no longer exist in you now (say my name)  
I feel this is how  
You will learn to let it go (alright)  
You'll feel like someone new

Count of three open eyes  
Wake yourself and get on with it  
Move yourself feel the breeze  
Fear no longer rule your body  
Why, Why, Why, Why, Why

Going under, feel the freedom  
Going under, feel the freedom  
Going under, feel the freedom  
Going under, feel the freedom

This is when I touch you  
This is when I touch you  
This is when I touch you
