

Speechless

Clazziquai Project

Your skin your breath and I touch you with your thousand memories
and I feel your song smoothly into my ears can't take my eyes away from you

I'm speechless I gotta get to you and take your hands and kiss

I'm so sad and blind I feel no goal and where is my soul and sense

I'm speechless I gotta get to you and take your hands and say

I'm so lost but feel I make no sense and still cannot do anything

You live without me and then my pain deep into my body and soul

and I cry so loud to send my mind away please wake up and then take my hand

I'm speechless I gotta get to you and take your hands and kiss

I'm so sad and blind I feel no goal and where is my soul and sense

I'm speechless I gotta get to you and take your hands and say

I'm so lost but feel I make no sense and still cannot do anything
