Just call my name
Just call my name
Just call my name

Just call my name

Call call, just call my name

I keep running into you, I know
I tried to avoid it, green light
But no more excuses, no you know
Tell me like a man, tell me more

The moonlight reflects your silhouette
As if it's been waiting for you, my heart
The answer is already here, you know
Don't take the long way

Ain't nobody else, ain't nobody else
We need our own
Secret time
You're my fantasy

And nobody knows, and nobody knows
You shine like a diamond
You steal my vision
Quietly come to me

Just call my name
Just call my name
Just call my name
Just call my name

I know you feel the same
So don't try to avoid it
Don't have any other thoughts, no you know
Be a little more honest with yourself

My slightly smeared red lipstick
As if it's calling you, my heart
The answer is already here, you know
Take a step to me, hold me tighter

Ain't nobody else, ain't nobody else
Our own secret memories
Are building up
You're my fantasy

And nobody knows, and nobody knows
You shine like a diamond
You steal my vision
Quietly come to me

Just call my name
Just call my name
Just call my name
Just call my name

You spread in my heart, automatic
You're already into me
Be careful so my heart won't cool down, red light
Don't wanna wake up from this dream

Just call my name
Just call my name
Just call my name
Just call my name

Call call, just call my name
