My love

I won't look for you again, hide carefully
I'll cast a spell

My last love, in my head
I'll erase all traces, hide

Hide carefully, if I see you, I'll get mad
When I count to ten and turn around, hide so I can't find you
The last 4 minutes of our call, the most hot issue these days
Fine, I'll get out of your life, let's see how well you live

My eyes that only looked at you, overwhelmed by all the memories
I'm alone in this dark room
Covering my eyes

I won't look for you again, hide carefully
I'll cast a spell
My last love, in my head
I'll erase all traces, hide

Hide carefully, I might find you (sweetie ma sweetie)
Hurry, hide carefully
Never wanna see you again (Sweetie ma sweetie)
My love

It's for the better, it's alright, goodbye, the last lie
Although I sadly smiled once again

My lips that only spoke about you, tears fall down
I'm alone in this dark room
Covering my eyes

I won't look for you again, hide carefully
I'll cast a spell
My last love, in my head
I'll erase all traces, hide

Hide carefully, I might find you (sweetie ma sweetie)
Hurry, hide carefully
Never wanna see you again (Sweetie ma sweetie)
My love

I keep remembering the hidden memories
Don't wanna be without you
Don't wanna be without you
But I'll smile as I let you go

Hide carefully in the frozen time
I'll cast a spell
My love was innocent like a child
Hide in the short happiness

Hide carefully, I might find you (sweetie ma sweetie)
Hurry, hide carefully
Never wanna see you again (Sweetie ma sweetie)
My love
