Recollections that clearly remain  
Become precious memories

That comfort my tired heart  
I remember your smile  
When I pretended to be alright, pretended to be happy  
Did you struggle like me too?

Because of you, every time I fall  
Thank you for being next to me  
Because of you, every time I turned around  
You always protected me

Thank you  
When you are tired and struggling  
When you are lost in the dark  
I will hold your hand at the end of the road

Thank you  
This path we're walking on right now  
Even if you can't see it because it's dark  
If we're together  
We can just keep walking

Because of you, every time I get scared  
Just your existence alone gives me strength  
Because you're here, I can stand again  
Because of you, every time I wanna fall down  
You hold out your hand to catch me  
Because I have you  
Who I'm so thankful for

Thank you  
When you are tired and struggling  
When you are lost in the dark  
I will hold your hand at the end of the road

Thank you  
This path we're walking on right now  
Even if you can't see it because it's dark  
If we're together  
We can just keep walking

Thank you for your love and heart  
Thank you for your love and heart  
Thank you for your love and heart  
Thank you for your time and love for me  
I'll cherish it forever

Thank you  
When you are tired and struggling  
When you are lost in the dark  
I will hold your hand at the end of the road

Thank you  
This path we're walking on right now  
Even if you can't see it because it's dark  
If we're together
