Like the ocean, like the sky
Like the ocean, like the sky

Do you remember the sound of the waves?
The summer night we spent holding hands?
We looked at the stars in the sky
And promised that we'll never change

Without knowing
I lay my head on your wide shoulders
You shyly smiled
And came closer to me with a tremble

Like a dream, like the ocean

A blue light wrapped around us
With our names carved into the sand
It was a beautiful memory of ours
Summer kiss

Like the ocean, like the sky

Do you remember the sound of the wind?
We walked on the beautiful night sea
As we looked at the moon in the sky
We promised we'd never let go

We were playfully talking
Then we met eyes
You shyly smiled
And came closer to me with a tremble

Like a dream, like the ocean
A blue light wrapped around us
With our names carved into the sand
It was a beautiful memory of ours
Summer kiss

Your pure eyes
I hope they never change even after a long time
Preciously engrave our eternal love
Into your heart

Like a dream, like the ocean
A blue light wrapped around us
With our names carved into the sand
It was a beautiful memory of ours
Summer kiss

Summer kiss, sunlight is dazzling
As it shines on us
A beautiful summer dream love story
Even when fall comes, we'll never forget each day
