

# Heart On Fire

Clean Bandit

oh oh

You got me spinning spinning spinning

You came in deep, I'm hijacked, it's a holdup  
I'm on the Ritz and we spinning every time we touch  
My head is gone and I think and think about you much  
I've never been the type of girl to dream about  
Sugary things and I don't believe in fairytales  
But now to me it's like your love is oxygen

So hear me when I say this, boy I tell you true, I ain't easy  
There's something about you just make me so crazy

I can't breath, you set my heart on fire (fire)  
Every single thing you do just set my heart on fire  
I struggle to breath, I can't breath, you set my heart on fire  
(fire)  
Start it again, I can't breath, you set my heart on fire

All about the feeling, it's off, and I'm ahead in this  
It's a chemistry, I'm so jacked up on your medicine  
This thing is next, I'm so in, I'll take it any chance  
Boy, you got me freaking, I never thought I'd be like this  
When you go, I'm tweaking and pining for another fix  
Told you before, your love is my oxygen

So hear me when I say this, boy I tell you true, I ain't easy  
There's something about you just make me so crazy

I can't breath, you set my heart on fire (fire)  
Every single thing you do just set my heart on fire  
I struggle to breath, I can't breath, you set my heart on fire  
Start it again, I can't breath, you set my heart on fire
