

# Goodbye

Clean Cut Kid

(1, 2, 3, 4)

You're like the sun in the sky up above  
Blinding my eyes while you warm me up  
You never opened up enough to let me in and you never will  
You're like the first cigarette of the week  
Tastes real good, but it's killing me  
I never saw the part of you that was real and I never will

And now your insides outside  
I can see your heart was never in line with mine  
Doesn't really bother me  
But sometimes I wonder why you never even thought to say goodbye  
e

You're like a fire shining bright as can be  
Lighting me up whilst you're burning me  
I never found a way to get under your skin and I never will  
So when I look back on all that we did  
And I feel a million miles away from it my heart breaks a bit  
When I think of you still and it always will

And now your insides outside  
I can see your heart was never in line with mine  
Doesn't really bother me  
But sometimes I wonder why you never even thought to say goodbye  
e

And now your insides outside
