Our Time Will Come

Clem Snide

We came with gifts, too beautiful [Incomprehensible] With anyone who'd care to look Look with only open eyes

It's true, our time will come It's true, our time will come Long after we die

We put a drop of [Incomprehensible] into A well and it was hard to tell That it was not the poison fear To make their vision [Incomprehensible] clear

It's true, our time will come It's true, our time will come Long after we die

It's true, our time will come It's true, our time will come Long after we die Long after we die

We die, we die, we die, we die We die, we die, we die, we die We die, we die, we die, we die We die, we die, we die, we die
