

# Desire

Cleo Sol

And they wonder why you changed my life  
You made things right, stood by my side  
Like a lullaby, you soothed my mind  
You helped me smile, opened my eyes

Love in your guidance  
Love in your eyes  
I'm in a plastic world with you  
But it's your lovin' that makes me feel real

Where have you been my life  
Desire  
And I'm wondering if you know you're my  
Desire  
I wonder can we share our lives  
Desire  
I wonder if you'll stay by my side  
Desire

When it's you and I, there is no time  
Together we vibrate high  
All I want is to feel  
You deep inside

Love in your guidance  
Love in your eyes  
I'm in a plastic world with you  
But it's your lovin' that makes me feel real

Where have you been my life  
Desire  
And I'm wondering if you know you're my  
Desire  
I wonder can we share our lives  
Desire  
I wonder if you'll stay by my side  
Desire  
(Will you stay right by my side?)

Where have you been my life  
Desire  
(Hold me closer to the light)  
And I'm wondering if you know you're my (You're my, you're my true desire)  
Desire (Lead us home, lead us home)  
I wonder can we share our lives (Share our lives, that's the real desire)  
Desire (You're my true desire)  
I wonder if you'll stay by my side  
Desire

Where have you been my life  
Desire  
Where have you been my life  
Desire  
Where have you been my life  
Desire
