

Fear When You Fly

Cleo Sol

If you see me, know that I'm not broken
And even though my head may be low
I will not lose hope

If you notice that my smile's not the same
Some friends I lost on the way
But I still have faith

Feel the fear when you fly
Feel the fear when you fly high
Feel the fear when you fly
Feel the fear when you fly high

You gotta learn to let go, and
Feel the fear when you fly
Feel the fear when you fly high

If you heard rumours that I lost my way
And my fight may be in the dark
But I won't break

If you feel I'm alone
Know the Lord is my home
And when I pray, He strengthens me
And spoke these words

You must feel the fear when you fly
Feel the fear when you fly high
Feel the fear when you fly
Feel the fear when you fly high

You gotta learn to let go, and
Feel the fear when you fly
Feel the fear when you fly high
Feel the fear when you fly
Feel the fear when you fly high
Feel the fear when you fly
Feel the fear when you fly high

You gotta learn to let go, and
Feel the fear when you fly
Feel the fear when you fly high
Feel the fear
