

## I'm Still Young

Cleo Sol

I'm still young, I'm still alive  
That's what I remind myself every day  
Before I start to cry  
Cause this life, this life gets on top of me  
And I feel like I'm by myself constantly, whoa

Keep looking up every time you feel down  
And when it starts to rain don't frown

I'm still young, I'm full of light  
That's what I remind myself every day  
Before I start to fight  
Cause this life, this life gets on top of me  
And I feel like I'm by myself constantly, whoa

Keep looking up every time you feel down  
And when it starts to rain, mmmm  
Don't frown
