

# Lost Angel

Cleo Sol

I was lost  
But it's over now  
I can change  
I choose faith over doubt  
'Cause I know  
My time will come  
And through love  
Our souls unite  
Our gods may be different  
But they see us all the same  
I can see  
That I cannot exist  
Without your presence

I was lost  
(But it's over now)  
I can change  
I choose faith over doubt  
'Cause I know  
My time will come  
And through love  
Our souls unite  
Our gods may be different  
But they see us all the same  
I can see  
That I cannot exist  
Without your presence

Only up above  
Solely up above  
I find my peace  
Only up above

And I need my angel now  
In us (I need my angel now)  
When you're lost, look for an angel (Angel now)  
Lost angel, fighting for your love (I need my angel now)  
And when your heart is torn  
Means your soul is born (Angel now)  
It means you got a conscience  
There ain't no other substance (I need my angel now)  
Hold your joy, hold your peace  
Hold your love, hold your trust  
You ain't ever gonna move if you don't get up (Angel now)  
When they try to break you down, get straight back up  
For yourself, no one else (I need my angel now)  
Don't be afraid to ask for help

(Angel now)  
'Cause you're strong, you're not alone (I need my angel now)  
I need my angel now  
The angels are smiling down, so pure (Angel now)  
Guide and protect us  
When our soul is feeling under pressure (I need my angel now)  
Don't give up  
No, don't, don't give up (Angel now)  
No (I need my angel now)

I was lost  
But it's over now  
I can change  
I choose faith over doubt  
'Cause I know  
My time will come  
And through love  
Our souls unite

I was lost (Only up above)  
But it's over now (Solely up above)
