I can feel that you're scared
I am scared, so let's be scared so I can fight
Who do I fight?
Not myself
Not today, I won't play that game
Not today

(Not today)

Do you think that you own everything, even your home
On your shoes and on your back
Even the comb, through your dome
It's not so real (real)
As you think
In a blink, (and when you blink)
It could be gone (it could be gone)
And you've lost even your soul (even your soul)
And you've lost even your soul
Just know that you are on your own
But it's okay cause we are one
One (one)
One (one)
One (one)
One (one)
One (one)
One (one)
One (one)
One (one)
We are one
One
One
One
We are one

We are one
Ohhh

I'm here with you (here)
I'm here with you (you)
Hold my hand and let go
Like an echo
On and on
[?] see the world today
We're on our way out (our way out)
All the forests are dying, the people are crying now
How, how
How have we, let this be
We freely on our TVs
They feed us fake food, it's so easy
We all know because we are one
