

I want to get so close to you  
And cherish the sunshine  
Leave everything behind  
And run away so far together  
A lotta pain in those eyes  
Please don't lose your life

Shine, shine your light, yeah  
This world was made for you  
So do you what you have to do  
I wanna see you  
Shine, shine your light, yeah  
This world was made for you  
So do what you have to do

Yes, it's been a long time, I know  
Well, patience will be kind  
'Cause God is on your side  
Marvelous, marvelous child  
I know that love  
Is like a thorn that's stuck inside  
But you will heal in time

Shine, shine your light, yeah  
This world was made for you  
So do you what you have to do  
I wanna see you  
Shine, shine your light, yeah  
This world was made for you  
So do what you have to do

Shine your light  
Shine your light  
Shine your light  
Shine your light

Shine, shine your light, yeah  
This world was made for you  
So do you what you have to do  
I wanna see you  
Shine, shine your light, yeah  
This world was made for you  
So do what you have to do
