

# Sunshine

Cleo Sol

Only love will save you this time  
Hopelessly fighting to escape your mind  
And nobody can help you  
In this foreign land where loneliness can keep you down

Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive

In my eyes, nothing is equal to your grace  
Living honestly can teach you about pain  
What are you living for? Purpose or blame?  
As long as there's tomorrow  
The sun will rise again

Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive  
Little more, little more, just a little more  
Sunshine, you make me feel alive  
Little more, little more, just a little more

The sun, you make me feel alive, that's why  
(Little more, little more, just a little more)  
You are my sun, you help me heal inside (Sunshine, you make me  
feel alive)  
(Little more, little more, just a little more)  
Just smile (Sunshine, you make me feel alive)  
And you will be surprised  
(Little more, little more, just a little more)  
That's why the sun always feels alive (Sunshine, you make me fe  
el alive)  
Little more, little more, just a little more
