

# Young Love

Cleo Sol

Dance sister  
Smile sister  
Laugh sister  
Cry sister  
You're a prize sister  
Don't hide sister  
Show them why sister

Little young, girl, don't you cry  
I know you're wise, but you've been fooled a few times  
Feeling trapped 'cause you lost yourself  
So you try to protect your heart

I know you wanna be someone  
(Be someone, be someone)  
You need something more  
(Something more, something more)  
'Cause you're trying to see yourself  
(See yourself, see yourself)  
Live the life you want

Young love, don't every waste your life  
I see that you're searching for peace of mind  
(Peace of mind)  
Young love, I want you to value your light  
I see that you're searching for peace of mind  
(Peace of mind)

('Cause you've got to believe)  
(Life's what you want it to be)  
'Cause you've got to believe)  
(Life's what you want it to be)

You're in a hurry  
Tryna tell the world that you are worthy  
Of all the things you keep chasing  
To know your heart is a brave thing

Babygirl, don't worry  
Tryna show the world that you are worthy  
Of all the things we keep chasing  
To know your heart is a brave thing, a brave thing

I know you wanna be someone  
You need something more  
'Cause you're tryna see yourself  
Walk away for more

I know you wanna be someone  
(Be someone, be someone)  
And your heart is pure  
You gotta get up out your head  
And realize you've won

Young love, don't every waste your life  
I see that you're searching for peace of mind  
(Peace of mind)

Young love, I want you to value your light  
I see that you're searching for peace of mind  
(Peace of mind)

Young love, don't ever waste your life  
I see that you're searching for peace of mind  
(Peace of mind)  
Young love, I want you to value your light  
I see that you're searching for peace of mind  
(Peace of mind)

('Cause you've got to believe)  
(Life's what you want it to be)  
(Cause you've got to believe)
