

# FAKE MOON

cleopatrck

Swear that all you do lately  
Is press down on me  
Then fish around  
My open mouth

Sky like a big screen  
Overt use of concrete  
Above the clouds  
Monitoring whereabouts

Every night, you're up there staring  
Observing and awaiting  
To crush the mouse  
Yeah, really bring the hammer down

Through the night, you're up there spying  
I'm leaking like a faucet  
I'm glowing like a cathode ray tube

That's no satellite  
Always a fake moon  
Always a fake moon  
A big fake moon  
Always a fake moon  
A fake moon
