ZUCK

cleopatrick

Ya I might have lost a part of me
While mindlessly acknowledging
Some shit about my privacy
In marks updated policies

But it's cool man I think it's alright
You can have it all you can take my files
I'mma give it up if it means my live will last for life

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?
I didn't realize continuity was so important

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?

I heard Q was pulling up with sanj and dan
So I rolled a couple grams in advance
Felt a little hollow and got caught up tryna scroll to the bottom
When I woke up they had came and went

Ah but it's cool ya I think it's alright
You can have it all you can take my files
I'mma give it up if it means my live will last for life

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?
I didn't realize continuity was so important

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?
I didn't realize continuity was so important

It's all in the cloud
It's all in the cloud
The shit you said to me privately
Dog eared page bedside for big man
Who told the moon to glow
Like the backlit logo
Of divine macbook pro

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?
I didn't realize continuity was so important

Baby listen please im telling you I'm sorry
That I broke the 4th wall on your instagram story
Could I make it up to you in the morning?
I didn't realize continuity was so important

Ah it's ok it's just some latency
Lately I been make believe

```
Since I heard you need
Something I can't hope to be
Or come to know

So I just
Do what I can
Hit a little
```

```
Since I heard you need
Something I can't hope to be
Or come to know

So I just
Do what I can
```
